

### Watch Those Teeth

A pain in the face does not necessarily mean tooth trouble, neither does a perfect-appearing tooth denote a sound one. It, therefore, takes the advice of an expert to diagnose the trouble. It is advisable to have the teeth thoroughly examined once every six months whether you think there is anything wrong with your teeth or not.

## REVISE TAX LAWS FIRST

—MONDELL

"Stop-gap" Tariff Bill Impracticable, Says Leader—Work on Permanent Act.

Revision of the taxation laws first, then the preparation of a permanent Republican protective tariff bill, is the program for the coming special session of Congress recommended by Representative Frank W. Mondell, of Wyoming, majority leader of the House.

**OPPOSES "STOP-GAP."** Mondell is strongly of the opinion that no time should be taken in an attempt to put through a "stop-gap" tariff measure to continue in effect until a permanent bill can be enacted. Such a course, he said, might, through delays, fail of its own purpose—to afford temporary relief—and also force a permanent bill over until the regular session in December.

In this view the majority leader is understood to have the support of most of the Republican members of the Ways and Means Committee, which must originate both the taxation and tariff measures.

The extent to which it will be practicable to go in the enactment of emergency legislation, the majority leader believes, will be the passage of a simple anti-dumping bill, carrying an amendment to the present tariff law basing customs duties on American rather than foreign values.

**SEES AUGUST ADJOURNMENT.** By following this program, Mondell declared, it may be possible to pass both the taxation and tariff measures in time to adjourn about August 1.

"I realize the importance of getting a tariff bill on the status of the law at the very earliest moment," Mondell said, "and if I felt that we could produce, pass, and have signed very promptly a temporary measure, I would be glad to favor it, even though it were not an ideal tariff bill, but having serious doubts that this can be accomplished, I am inclined to the opinion that the Ways and Means Committee could let to work at once on a permanent tariff measure."

### TWO BOYS ARRESTED FOR SELLING "FACTS"

Two boys who attempted to dispose of a newspaper known as "Facts," which is attempting to counteract any feeling Henry Ford may have developed through his anti-semitic attitude, were arrested yesterday at Ninth and F streets northwest by Detectives Messer and Fowler, of the First precinct. The boys said they were Lew Brody and David Tobias Rosenstock, of Baltimore.

The police say the boys were so enthusiastic in their efforts to dispose of their newspaper that they attracted a large crowd and caused obstructed pavements. They also say the vendors shouted loudly and acted disorderly.

The boys could not furnish \$25 collateral. They will have a hearing in the Police Court tomorrow.
